Who are we?

Gaobeidian PRISES Biotechnology Co., Ltd, was established in 2012 in Hebei, China, and is 50 kilometers away from Beijing. PRISES is the only one diversified and innovative enterprise, who specialized in R & D, production sales and export of in-Vitro diagnostic medical and contraceptive products, specializes in infectious disease test, fertility test, drug of abuse test, tumor markers, related reagent and materials, all kinds of medical adhesive tape, cooling and heating patch, blood pressure monitor, thermometer, as well as other medical products.

The workshop covers an area of 3,000 square meters, including class 1000,000 clean workshop with 700 square meters, class 10 thousands of microbiological testing room with 200 square meters, well-equipped quality inspection rooms, research and development laboratories, etc.

Our products has been approved by ISO13485, CE, and NMPA certification etc.

The company adheres to the enterprise spirit of "integrity, quality, science and innovation" and has won the trust of the vast number of partners with high-quality products and good service. PRISES dedicates to global customer service with excellent products, high quality service, preferential price and good reputation.

CERTIFICATES

The company's products have been approved by the Ministry of Commerce and CCCMHPIE White List.

Obtained the national high-tech enterprise certificate in 2019.

The company passed ISO13485 certification in 2016.

Fertility Test

One Step HCG Pregnancy Test Kit

The hCG Rapid Test is a rapid chromatographic immunoassay, used for early detecting human chorionic gonadotropin (hCG) in human urine to indicate pregnancy.

ACCURATE FAST EASY

Simple operation Quick result

Accuracy: 99.96%.
Sensitivity: 25mIU/mL, 10mIU/mL.
Rapid: Result is readable as quick as in 1 minute.
Diverse Specifications: Strip, cassette, midstream.
Specimen: Urine only---widely used for self-testing.
Urine/serum---more sensitive & accurate.

ACCURATE FAST EASY

ABNORMAL PREGNANCY TEST (Colloidal Gold)

Abnormal pregnancy test kit (Colloidal gold) is designed for the qualitative detection of human chorionic gonadotropin (intact hCG) and human chorionic gonadotropin-related protein (hCGRP) in urine. It is provided as an auxiliary means for clinical diagnosis of abnormal pregnancy risk assessment.

ACCURATE FAST EASY

Weekly pregnancy test

Semi-quantitative hCG One-step Pregnancy Test (5 in 1 dipcard) is a self performing immunoassay designed for the qualitative determination of human chorionic gonadotropin (HCG) in urine for early detection of pregnancy. The test device is intended for self-testing.

ACCURATE FAST EASY

Fertility Test

LH Ovulation Test Kit

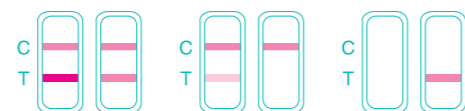

LH Ovulation Test is a complete system to help predict the time of ovulation and peak fertility. It is during this fertile time that pregnancy is most likely to occur. LH Ovulation Test detects the luteinizing hormone (LH) surge in urine, signaling that ovulation is likely to occur in the next 24-48 hours.

- Accuracy: 99.96%
- Sensitivity: 25mIU/mL.
- FAST: Results take only 3-8 minutes.
- Easy To Use: Without any instruments.
- Diverse Formats: Strip, Cassette, Midstream.

Try to collect urine at about the same time each day for the entire cycle. For best results, collect it between 10:00 am and 8:00 pm.

[positive] [negative] [invalid]

ACCURATE FAST EASY

Digital Pregnancy & Ovulation Test

The Digital Pregnancy and Ovulation Test can test both ovulation and early pregnancy. It can test ovulation first and then test pregnancy to understand whether you are pregnant or not. The monitor can distinguish ovulation and pregnancy test automatically by insert the ovulation or pregnancy test stick. The test result will be given by the LCD display.

FSH (Follicle-Stimulating Hormone) Test

FSH (Follicle-Stimulating Hormone) Test is used to detect FSH in the urine; this helps to check the function of the pituitary gland and check if hormone levels are normal. The test can be used to see if a woman has started the menopause. The product may also be used (along with other tests) to test for possible causes of both male and female infertility.

- Accuracy: 99%.
- Sensitivity: 25mIU/ mL.
- Rapid: Results take only 5-10 minutes.

SPERM SP10 PROTEIN DETECTION DEVICE

Infectious Diseases Test

HBsAg Rapid Test Kit

The HBsAg Rapid Test is intended for the qualitative detection of Hepatitis B surface antigen (HBsAg) in human serum, plasma or whole blood, and is appropriate for a rapid, simple and accurate auxiliary diagnosis of HBV infection.

H.pylori Ag Rapid Test

The H. pylori Ag Rapid Test is a lateral flow chromatographic immunoassay for the qualitative detection of H. pylori antigen in human fecal specimen. It is intended to be used by professionals as a screening test and as an aid in the diagnosis of infection with H. pylori.

Typhoid IgG/IgM Combo Rapid Test

The Typhoid IgG/IgM Combo Rapid Test is a lateral flow immunoassay for the simultaneous detection and differentiation of anti-Salmonella typhi (S. typhi) IgG and IgM in human serum, plasma or whole blood. It is intended to be used by professionals as a screening test and as an aid in the diagnosis of infection with S. typhi.

Malaria Pf/Pv Ag Rapid Test

The Malaria Pf/Pv Ag Rapid Test is a lateral flow chromatographic immunoassay for the simultaneous detection and differentiation of Plasmodium falciparum (Pf) and vivax (Pv) antigen in human blood specimen. This device is intended to be used as a screening test and as an aid in the diagnosis of infection with plasmodium.

Dengue NS1 Ag-IgG/IgM Combo Rapid Test-Cassette

The Dengue NS1 Ag-IgG/IgM Combo Rapid Test detects IgG, IgM anti-dengue virus and circulating dengue antigen in one test within 25 minutes. The test is user friendly, without cumbersome laboratory equipment, and requires minimal staff trainings.

HIV Ag/Ab 4th Gen. Rapid Test

The HIV Ag/Ab 4th Gen. Rapid Test is a lateral flow immunoassay for the qualitative detection of antibodies (IgG, IgM, IgA) to anti-HIV-1 (including O) and-2 virus and HIV-1 p24 antigen in human serum, plasma or whole blood.

Resiratory Infectious Diseases Tests

SARS-COV-2 Antigen Rapid Test

SARS-COV-2 Antigen Rapid Test is a test and provides a preliminary test result to aid in the diagnosis of infection with novel Coronavirus. This product is used for in vitro qualitative detection of the antigen of novel coronavirus in human nasopharyngeal swabs.

SARS-COV-2 Antigen & Flu A/B Combo Rapid Test (Colloidal Gold)

The SARS-COV-2 Antigen test is used for in vitro qualitative detection of the antigen of novel coronavirus in human throat swabs or nasal swabs.

The Flu A/B rapid Test is a colloidal gold enhanced, rapid immunoassay for the qualitative detection of influenza A and influenza B viral nucleoprotein antigens. The test is intended for healthcare professional use only.

Monkeypox Virus Antigen Rapid Test

The Monkeypox Virus Antigen Rapid Test is a colloidal gold immunoassay (CGIA) for qualitative detection of monkeypox virus antigen in human whole blood, serum, plasma or rash exudate.

Tumor markers Tests

Cardiac markers Tests

FOB (Fecal Occult Blood) Test

The One Step Fecal Occult Blood Rapid Test is an effective product to discover fecal occult blood through quantitatively testing the hemoglobin within human feces. Any digestive disease that causes a handful of bleeding leads to a positive result of FOB. The testing for FOB is hereby critical to detect the various of gastrointestinal bleeding or early tumor.

PSA (Prostate Specific) Antigen Test

A PSA test is used to screen for prostate cancer. Cancer screening means looking for signs of cancer before it causes symptoms. But screening tests can't diagnose cancer. If a screening test finds signs of cancer, you'll need other tests to find out if you have cancer and how serious it may be.

Myoglobin/CK-MB/Troponin I

Rapid Myoglobin/CK-MB/Troponin I Whole Blood Test is an immunochromatography based rapid in vitro test. It is designed for qualitative determination of cardiac Myoglobin/CK-MB/Troponin I in human whole blood, serum or plasma as an aid in the diagnosis of myocardial infarction.

Troponin I Test

Troponin I Test is intended for the qualitative determination of cardiac troponin I in human whole blood, plasma or serum. Measurement of troponin I values is useful in the evaluation of acute myocardial infarction (AMI).

Tumor markers Tests

Product name	Specimen	Format	Package	Strip Width
FOB (Fecal Occult Blood) Test	Feces	Cassette	20 Tests/kit	3 mm

Pet Tests

Product list

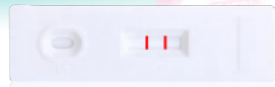

Feline Panleukopenia Virus Antigen Rapid Test Kit

Format: Cassette, 1/25/50 Test(s)/Kit

Shelf Life: 24 months

Intended use: Feline Panleukopenia Virus Antigen Rapid Test Kit is a lateral flow immunochromatographic assay for the qualitative detection of Feline Panleukopenia Virus Antigen (FPVAg) in cat's feces.

Canine Coronavirus Antigen Rapid Test Kit

Format: Cassette, 1/25/50 Test(s)/Kit

Shelf Life: 24 months

Intended use: Canine Coronavirus Antigen Rapid Test Kit is a lateral flow immunochromatographic assay for the qualitative detection of Canine Coronavirus Antigen (CCV Ag) in dog's feces.

Item: urobilinogen, bilirubin, ketone, creatinine, blood, protein, micro albumin, nitrite, leukocytes, gluco specific gravity, pH, VC, calcium.

Drug OF Abuse Tests

Drugs of Abuse Test

Drugs of Abuse Test is a rapid one step test for the qualitative detection of different drug metabolites in human urine. Most common type of drug screening. Widely used in pre-employment screening, university enrollment screening, routine workplace testing, or court-mandated compliance.

Cut-off levels comply with international standards 3-8 minutes to read results

Multi-Drug Test Panel

Permits multi determinations in one panel. Many different combinations are available.

Drug OF Abuse Tests				
Drug Name	Abbreviation	Cutoff Level	Specimen	Format
Amphetamines	AMP	1000 ng/ml	Urine	Strip/cassette

MESH NEBULIZER SERIES

Model: YM-3R9

Fine particles: large fog, fine atomized particles, particles can reach 1-5 m, drug absorption more fully
 High speed: microporous spray tablets, atomization speed 0.2ml/min
 Quieter: with piezoelectric components, quieter design with low noise
 Flashing light: green light means normal operation, red light means no power or insufficient voltage
 Energy-saving and environmental protection: skin-friendly and environment-friendly, the mask adopts PP(polypropylene) as the main material, without DEHP(plasticizer/plasticizer)

Specification	oscillation frequency: 100kHz ± 10% condensation rate: ≥ 0.25ml/min atomized particles: ≤ 5μm medication flow rate: approx. 0.4ml/min volume: max. 10ml housing material: ABS operating conditions: temperature: +5°C - +40°C relative humidity: < 80% non-con-densing
Mains connection	10-240V, 50-60HZ, 0.15A
Power	DC5V/1000mA USB power adapter or 2* 1.5V (2 sets of 5 AA alkaline, no battery included)
Dimension & Weight	45(w)*45(h)*100(L)mm 59*30*35cm/50PCS/12.8KG 278g(without batteries)

Model: M201

Feature

- Small and portable
- Ultrafine Particles
- Dual Power Supply
- Little Drug Residual
- prevent dry burn
- Low Noise

Specification

Nebulizing rate: ≥ 0.25ml/min	Noise : ≤ 50db
MMAD : 3.5μm	Medication Capacity : 10ml
Input : DC 5V/3V	Nebulizer weight : About 70g
packing weight : About 9.9Kg	Machine size : 38*32*105
Color box size : 129*101*52	CTN size : 530*275*280
quantity packed : 50	Color : Gray, Green, Orange, Blue

HOME CARE SERIES

➤ Arm Blood Pressure Monitor UL11

- 1) 4*AAA batteries for power
- 2) LCD Display Available
- 3) Different color Optional
- 4) WHO hypertension indicator
- 5) Irregular heartbeat is detected when arrhythmia occurs
- 6) Voice Function (Support for different languages)

Measurement method	Oscillometric method
Measurement range	0mmhg (0-39kpa)
Dimension	107*79*141mm
Memory Storage	90 memories for 2 persons
Accuracy	3mmHg/± 0.4kpa (blood pressure), ±5%(pulse)
Weight	229g(without batteries)
Auto power-off	60s
Power supply	4xAAA batteries DC6V

➤ Arm Blood Pressure Monitor UL12

- 1) 4*AAA batteries for power
- 2) LCD Display Available
- 3) Different color Optional
- 4) WHO hypertension indicator
- 5) Irregular heartbeat is detected when arrhythmia occurs
- 6) Voice Function (Support for different languages)

Measurement Method	Oscillometric method
Measurement Range	0mmhg (0-39kpa)
Dimension	140mm*106mm*67mm
Memory Storage	90 memories for 2 persons
Accuracy	3mmHg/± 0.4kpa (blood pressure), ±5%(pulse)
Weight	317g without batteries
Auto Power-Off	60s
Power Supply	Rechargeable with lithium battery

➤ Arm Blood Pressure Monitor ZK-B869 ZK-B869

- FUNCTION:**
- 1) 99x2 sets memory for 2 users
 - 2) Intelligent pressure
 - 3) Voltage power detection
 - 4) Time and date
 - 5) Heart rate detection
 - 6) Real voice(optional)
 - 7) Colorful backlight (optional)
 - 8) Dry battery/lithium battery (optional)

- SPECIFICATION:**
- *Weight: about 220 grams (without batterie)
 - *Size: 115*96*59mm
 - *30PCS/carton /G.W: 14 kg/ctn
 - *Colorboxsize: 110*100*160mm
 - *Outer carton size: 517*350*340mm

➤ Arm Blood Pressure Monitor ZK-B869 HK-805-2

- Smart Sense
- WHO Indication
- Type-C
- 2x120 Memories(2 Users)
- Heart Pulse Arrhythmia Detection
- Average For Last 3 Measurements
- Backlight (optional)

➤ Arm Blood Pressure Monitor AES-U512

- 1) Rechargeable with lithium battery
- 2) One key to measure
- 3) Body remove/Cuff detection
- 4) Irregular heartbeat is detected when arrhythmia occurs
- 5) Voice broadcast is convenient for users

Measurement method	oscillographic method	Accuracy	3mmHg/± 0.4kpa (blood pressure), ±5%(pulse)
Measurement range	0-290mmhg (0-39kpa)	Power supply	lithium battery DC3.7V
Dimension	137× 109× 69mm	Weight	250g with batteries
Memory recall	2*90 groups	Auto power-off	60s

HOME CARE SERIES

Digital Thermometer FIO7

Features:

- 1) LED Screen Display(Visible at night)
- 2)Fast Thermal conductivity of the probe
- 3) OEM/ODM services
- 4) Vibration Alert and Waterproof design
- 5) Magnetic Charging Bin (Charging while storage)
- 6) Easy to Carry

Thermometer Size	130mm*11mm*7mm
Box Size	157mm*37mm*19mm
Accuracy	±0.01C(36.00°C-39.00°C)
Digital Thermometer	DC3.7V,20mAh Lithium Battery
Charging Bin	DC 3V(2*AAA) Batteries
Display Range	32.00°C-43.00°C

Infrared Thermometer AET-R832

- LED display
- 1s measure
- fever warning
- memory query
- automatic shutdown
- C/F conversion

Features:

- 1) Measure ear temperature with LED light at night
- 2) Ergonomic design, comfortable to hold
- 3) Fahrenheit and celsius conversion
- 4) One key to measure, display precision 0.1°C
- 5) Intelligent storage of 32 set of memory readings

Measuring range	32.0°C~42.2°C (89.6°F-108°F)	Accuracy	• ±0.2°C (35.0°C~42.0°C) ±0.4°F (95.0°F~107.6°F) • ±0.3°C (±0.5°F) (32.0°C~34.9°C/42.1°C~42.2°C)
Measuring mode	forehead&ear mode	Power supply	2*AAA(DC 3V)
Memory Reading	32 memories recall	Weight	64g without batteries
Dimension	37mm*47mm*141 mm	Auto power-off	60s

Measurement time:	≤1 min	Accuracy:	±0.1°C, 35.5°C-42.0°C(±0.2°F, °F95.9°F-107.6°F)
Battery:	DC 1.5 V (size LR41)		+0.2 °C under 35.5°C or over 42.0°C (±0.4°F under 95.9°F or over 107.6°F)
Battery life:	About 1000 times(22°C)		at standard room temperature of 25°C(77.0°F)

Using environment:	Temperature:10°C~40°C(50°F-104°F) Relative humidity:15%RH-85%RH Atmospheric pressure: 86kPa-106kPa
Storage and transportation condition:	Temperature: -25°C~55°C (-13°F~131°F) Relative humidity:15%RH-85%RH Atmospheric pressure: 50kPa~106kPa

Infrared Thermometer AET-R1B1

- forehead measure
- 1s measure
- fever warning
- memory query
- automatic shutdown
- replaceable battery

Features:

- 1) Non-contact measurement
- 2) Ergonomic design, comfortable to hold
- 3) Fahrenheit and celsius conversion
- 4) One key to measure, display precision 0.1°C
- 5) Practical appearance patent of arc reflector

Measuring range	32.0°C~42.2°C (89.6°F-108°F)	Accuracy	• ±0.2°C (35.0°C~42.0°C) ±0.4°F (95.0°F~107.6°F) • ±0.3°C (±0.5°F) (32.0°C~34.9°C/42.1°C~42.2°C)
Measuring mode	forehead mode	Memory recall	32 memories recall
Data transmission	2G/4G/Bluetooth	Power supply	2*AAA batteries(DC 3V)
Dimension	144mm*101mm*26 mm	Weight	88g without batteries
Resolution	0.1°C	Auto power-off	60s

HOME CARE SERIES

CLINICAL THERMOMETER

Time series of temperatures were made possible, providing information on the progress of an illness and the trend of the patient's condition. One good indicator of the importance of the thermometer is that over one billion temperature measurements are carried out yearly in the hospitals in China. Physicians looked for symptoms that could increase their knowledge about the condition of the patient, the nature of illness, and its seriousness.

HEATING PATCH SELF-HEATING OR SELF-WARMING

Composition: The Heating Patch consists of inner and outer bags and contents of their sealed packaging. The outer bag is plastic bag, and inner bag is made of non-woven fabric or plastic film with adhesive tape. The contents of Heating Patch are iron powder, sodium chloride, activated carbon, vermiculite, and water.

Product name : Heating Patch
Package: 12.5X16.5cm, Box: 17x13x5.5cm
patches/carton: 40boxes

Motion Sickness Patch

Application: Motion sickness patch is pasted behind the ear or navel of human body. With the help of aroma of lemon essential oil and the evaporation of ethanol and menthol, it is one time use when reducing human body's reaction from motion sickness, seasickness, or airsickness.

Product name : Motion Sickness Patch
specification: 4pcs/box
Box: 12X8X1.6cm

Wound plaster

Application: Wound plaster is used for emergency treatment or temporary dressing from superficial wounds such as small wounds, abrasions, or cuts.

Product name : Wound plaster
specification: 7*2*10cm
specification: 20pcs/box

HOME CARE SERIES

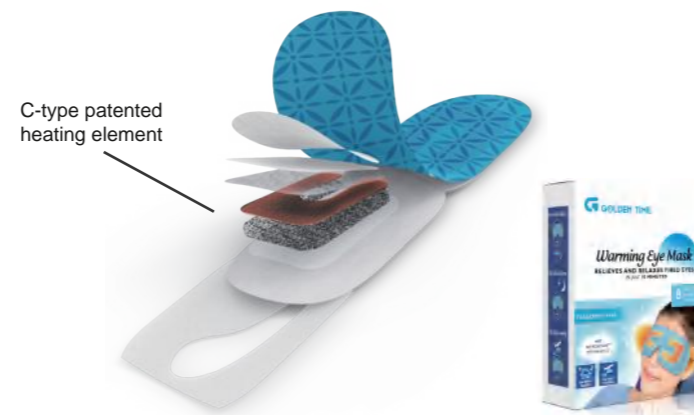

C-type steam hot compress eye mask (set of 10 pieces)

Ingredients: non-woven fabric, iron powder, water, activated carbon, etc

Product standard number: Q/12SC003

Specification: 190 × 80mm (one piece)

Storage conditions: Avoid direct sunlight and store in a dry place at room temperature Shelf life: 3 years

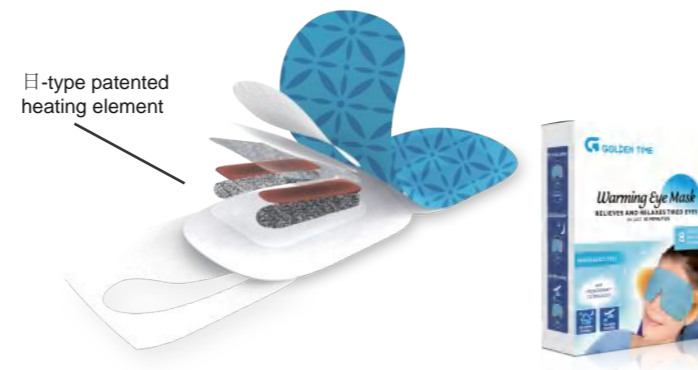

B-type steam hot compress eye mask

Ingredients: non-woven fabric, iron powder, water, activated carbon, etc

Product standard number: Q/12SC003

Specification: 190 × 80mm (one piece)

Storage conditions: Avoid direct sunlight and store in a dry place at room temperature Shelf life: 3 years

The visual eye mask adopts precise labeling technology, A variety of animal comics, fashion and other designs are rich and colorful.

Steam Neck patch

[Product specification] 500*85mm

[Package specification] 1 patch/Bag, 5 bags/Box

Steam neck patch is a daily neck-care product developed on the basis of the theory of traditional Chinese medicine. U-shaped ergonomic design fits the shoulders and neck better. Herbal steam hot compress, the average heat is 53 degrees, and the hot compress lasts for 6 hours. Medical skin-friendly cotton is non-irritating, cares for the cervical spine, and relieves shoulder and neck fatigue and shoulder pain.

Steam Waist Patch

[Product specification] 270*140mm

[Package specification] 1 patch/Bag, 5 bags/Box

The average fever is 53 degrees and lasts for 8-10 hours. Herbal steam hot compress can be used on the waist and abdomen, and the patch-free design is no burden. Continuous heating of large areas, waist protection, relief of stomach pain.

Steam Knee Patch

[Product specification] 230*145mm

[Package specification] 1 patch/Bag, 5 bags/Box

Butterfly-shaped design, the acupuncture points around the knees are more suitable for freedom of movement, and the herbal hot compress protects the knee joints. Long-lasting heating technology lasts for 6-8 hours, with an average heat of 53 degrees.

Steam Foot Patch

[Product specification] 90*80mm

[Package specification] 1 patch/bag, 2 patches/bag, 10 patches/box

Herbal hot compress cares for the soles of the feet. It generates an average heat of 45 degrees and lasts for 4 hours. The patch-free design does not hurt the skin.

HOME CARE SERIES

RUBBER HOT WATER BOTTLE

The hot water bottle made of virgin natural rubber has many molds can produce many different size and the quality conforms to the international BS standard.

STRIP CUTTER

This machine is designed to cut a wide range of laminated card into final strip sizes

CASSETTES PRESSER

For easy assembling top and bottom component plastic housings of Rapid test device

SEALING MACHINE

Sealing machine can seal various plastic film bags of different materials, and can also be used in conjunction with various packaging streams machines.

This machine is high continuous sealing efficiency, reliable sealing quality, reasonable structure, and easy operation.
